

Patient: Vikramaditya Singh (79M)

ABHA Address: vikramaditya.singh@abdm

Status: *SYNTHETIC / DEMO DATA*

Examination Findings

Bilateral crepitus in knee joints, right > left. Joint space narrowing Grade III on X-ray. Range of motion: 0-110 degrees with end-range stiffness.

Management & Advice

Quadriceps strengthening exercises, heat therapy. Avoid squatting and cross-legged sitting. Intra-articular Hyaluronic Acid injection considered if medical therapy fails.
